CAREER OBJECTIVES

Information Science Engineering student skilled in Python, SQL, Data Analytics, and Machine Learning, seeking an Associate Trainee role to apply problem-solving skills and build data-driven solutions.

EDUCATION

|                                                                                                                                 |             |
|---------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Bachelor of Engineering (B.E.) in Information Science and Engineering</b><br><i>Jain Institute of Technology, Davanagere</i> | 2023 – 2027 |
| <b>Current CGPA: 8.83</b>                                                                                                       |             |
| <b>Pre-University Course (Science), Sir MV</b><br>Percentage: 90%                                                               | 2021 – 2023 |
| <b>Secondary School Leaving Certificate (SSLC), NMK High School</b><br>Percentage: 93.6%                                        | 2020 – 2021 |

SKILLS

Programming: Python, SQL, Java .Data Analytics: Pandas, NumPy, Data Analysis, Data Visualization .Machine Learning: Machine Learning, Predictive Modeling .Database: MySQL, DBMS .Tools: Power BI, Streamlit, Git .Core Concepts: OOP, ETL, Data Modeling, Data Warehousing |  
Soft Skills: Problem Solving, Communication, Teamwork, Learnability, Adaptability, Ownership

ACHIEVEMENTS

**Academic Topper**, Information Science & Engineering, Jain Institute of Technology  
**2nd Place ,Ideathon**, State-Level Competition, Emerge2K25

PROJECTS

|                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Bitcoin price prediction</b> , Python, Machine Learning, Streamlit<br>Developed an ML-based application to predict Bitcoin price trends and visualize market insights.         |
| <b>Student Performance Prediction</b> , Academic Project / Python, Streamlit<br>Built an ML model to analyze student data and predict academic performance.                       |
| <b>AI Object Detector</b> , Python, Computer Vision<br>Developed an AI-based object detection system to identify and classify objects in images using computer vision techniques. |

CERTIFICATES

**Data Analyst 101:** Microsoft | Simplilearn | SkillUp |  
**Oracle Certified Foundations Associate – Agentic AI Foundations:** Oracle |  
**Fundamentals of Artificial Intelligence (Degree Student):** Wadhwani Foundation |  
**Data Analytics Job Simulation:** Issued by Deloitte | **Database and SQL:** Issued by Infosys |  
**Enterprise Design Thinking Practitioner:** Issued by IBM SkillsBuild

INTERNSHIPS AND WORKSHOP

|                                              |                   |
|----------------------------------------------|-------------------|
| <b>Prodigy InfoTech, Data Science Intern</b> | 08/2026 – 09/2026 |
|----------------------------------------------|-------------------|

**Place Mantra**, *Artificial Intelligence and Machine Learning*

**AI Tools Workshop**, *Be10X*

**Robotics Workshop**, *BIET*

## **CO CURRICULAR ACTIVITIES**
